

Response to January 8, 2014 Open House Written Question

Version 1 – January 15, 2014

1 1/8/2014	What height are the monitors at? 10 feet? 30 feet?		
The PM2.5 monitor inlet heights in the Fairbanks North Star Borough are shown below:			
Site Name	Location	Scale	Monitor Inlet Height
State Office Building	Fairbanks	Neighborhood	19.7 feet (6 meters)
NCORE	Fairbanks	Neighborhood	13.1 feet (4 meters)
North Pole Fire	North Pole	Middle	13.1 feet (4 meters)
For information pertaining to the EPA monitoring site criteria, see Table 8 (page 50), Summary of Representative Probe and Monitoring Path Siting Criteria, contained in the Statewide Quality Assurance Project Plan (QAPP), located on our website: http://dec.alaska.gov/air/am/am_airqual&guidQA.htm
