Subject: Update #8, Sulfolane investigation

Dear concerned citizen,

This is a reminder of the public meeting on Thursday, February 18, at the North Pole High School auditorium, 7 to 11 p.m. We invite you to bring your questions and comments about the issues surrounding the sulfolane investigation. The meeting is hosted by the Alaska departments of Environmental Conservation and Health and Social Services.

We'll have a short presentation to give an update on the status of the investigation, addressing health issues, the area affected by the plume, and solutions in place and planned. We've also planned lots of time for questions and comments. If you're unable to attend, please feel free to contact us.

Sincerely,

Marti Early
