

# *Fuel Out – Fish On!*

**Excessive** Gas from boat motors is in the Little Susitna River.

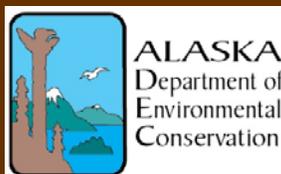

## ***Take Action!***

- Use 4-cycle or direct fuel injected 2-cycle motors.
- Tune and service motors...at home.
- Fill your tank before you launch.
- Drain your boat away from the river.
- Plan ahead on ways to keep your gasoline out of the river.

**We have 2 years to clean up the river before restrictions may apply.**

**Salmon and Trout Depend on Clean Water!**
